

## Matting Agent 469

Matting Agent 469 is a matting agent for epoxy-polyester resin and polyester powders modified with TGIC.

### ITEM

### SPECIFICATION

**Appearance :** Yellow powder

**Odor:** odorless

**Melting Point:** 115 ~ 120 °C

**pH(100 g/L Water):** 6.0-7.0

**Specific gravity:** Approx. 0.98 @ 20 °C

**Packing :**  
20KGS / BAG  
500KGS / PALLET

**Application :** Matting Agent 469 has no deleterious effect on the flow Properties, shade or weathering resistance of powder coatings. One of the most important advantages is that the mechanical properties of the coating are either completely unchanged or altered to only an insignificant extent, depending on the type of polyester. With dark shades, slight sweating may be observed under some circumstances.
